

## Adderley Village Lights Up

*Please print this off and share it with anyone you know in the village who may not be able to access the internet easily. We don't want anyone to be left out if they want to be involved. Thank you*

If you are reading this we hope its because you want to find out how to get involved in the community Christmas Lights celebration we are holding this year. 2020 hasn't been a good year but we don't want to let it spoil our Christmas so we thought we would bring everyone together to feel like a community and we hope we this event provides something for everyone that we can do safely within the limitations of Covid.

So there are a number of options:

**Christmas Lights in your garden** – decorate your garden with lights and be part of the Big Switch On of these and the lights on the Christmas Tree we are putting on the green near the village hall on 4<sup>th</sup> December 7.00pm

**Window Wonderland** - If lights aren't your thing how about decorating a window at the front of your house with a Christmas scene of some sort that people can admire as they walk around the village trail on and after 4<sup>th</sup> December – more ideas on website

**Make a decoration** – We would absolutely love to have a tree decoration made or contributed by every house in the village to the tree on the green. Wouldn't that be an amazing thing? Ideas for how to make a decoration are on the website

[www.adderleyparish.co.uk](http://www.adderleyparish.co.uk) and click on **Big Switch On** tab.

*If you would like to take part but are shielding or housebound, please speak to a neighbour or contact one of the organisers, Iain Wilson or Phil Gadd and we will make sure someone comes along to help you safely, to be able to take part*
